

PRODUCT LINE CARD

- Stairwell & Elevator Hoistway Pressurization Controllers
- Clothes Dryer Exhaust Fans
- Lint Filters
- Constant Pressure Make-up Air Supply Systems for Laundry Rooms

- Fully Modulating Multistory Exhaust Systems for Centralized Shafts
- Multistory Bathroom, Clothes Dryer or Residential Kitchen Hood Shafts with Integrated Fire Resistive Enclosure Assembly
- Low-profile Subduct Risers
- Factory-built Aluminized Steel Clothes Dryer Exhaust Ducts

duravent™

- Single- & Double-wall Special Gas Vents
- Plastic Special Gas Vents
- Mission Critical Generator Exhaust Systems
- Double-wall Stainless Steel Chimneys
- Factory-built Single-wall Grease Ducts

- Factory-built (Zero Clearance) Round Grease Ducts
- Integrated Fire Resistive Enclosure Assembly

- Mission Critical Generator Exhaust Systems
- Factory-built (Zero Clearance) Round & Rectangular Grease Ducts with Integrated Fire Resistive Enclosure Assembly

- Fully Modulating, Constant Pressure Air Supply Systems for Boiler Rooms
- Chimney Fans, Draft Inducers & Power Venters

- Modulating Damper Systems & Draft Control Systems
- Single-blade Isolation Dampers

ABOUT US

SLTNS Engineered Systems® is a professional manufacturers' representative specializing in high-performance building technologies such as stairwell & elevator pressurization controllers, combustion & make-up air systems, clothes dryer exhaust systems, fully modulating multistory exhaust systems, special gas vents, chimneys, engine exhaust, mechanical draft systems, draft controls, and commercial kitchen exhaust.

Expect More

SLTNS Engineered Systems® prides itself in exceeding your expectations. We believe in maintaining long-term relationships and not focusing on short-term gains. To preserve our relationships, we always apply three principles to each project:

- **Compliance.** Our engineers thoroughly understand codes and standards such as ASHRAE's chimney design equation, IBC, IFGC, IMC, NFPA 37, NFPA 54, NFPA 92 & NFPA 211.
- **Honesty.** We believe in long-term customer relationships. To build loyalty and trust with our customers, we always provide you and your client with the proper solution, even if it does not fit within our product portfolio.
- **Knowledge.** Our engineers have over three decades of design experience, so we don't have to rely on computer programs or manufacturers to guide your design. Additionally, our estimators have full knowledge of our product line to ensure your questions get answered correctly.

Our Team

Our customer service team consists of people with extensive experience, skills, and enthusiasm to deliver top-notch customer service and technical assistance.

When you choose to work with our company over others, you can look forward to unparalleled and extraordinary service on all of your projects.

Specializing in High-Performance Building Technologies!
