

PRODUCT LINE CARD

US DRAFT CO.

- Fully Modulating, Constant Pressure Air Supply Systems for Boiler Rooms
- Chimney Fans, Draft Inducers & Power Venters
- Modulating Damper Systems, Draft Control Systems & Barometric Dampers
- Single-blade Isolation Dampers

- High-rise Exhaust Systems
- Compensated Stairwell Pressurization Controllers, Dampers, Sensors, & VFDs
- Constant Pressure Make-up Air Supply Systems for Laundry Rooms

- Multistory Bathroom, Clothes Dryer or Residential Kitchen Hood Shafts with Integrated Fire Resistive Enclosure Assembly
- Galvanized Steel Clothes Dryer Exhaust Ducts
- Clothes Dryer Exhaust Fans
- Lint Filters
- Low-profile Subduct Risers

- Double-wall and Single-wall Special Gas Vents
- Building Heating Appliance Chimneys

- 1400°F Chimneys
- Engine Exhaust Systems
- Factory-built Single- & Double-wall Grease Ducts
- Factory-built (Zero Clearance) Round & Rectangular Grease Ducts with Integrated Fire Resistive Enclosure Assemblies

- Double-wall and Single-wall Special Gas Vents
- Plastic Special Gas Vents
- Type B Gas Vents
- Building Heating Appliance Chimneys
- 1400°F Chimneys

Specializing in stairwell & elevator pressurization systems, combustion & make-up air systems, clothes dryer exhaust systems, multistory exhaust systems, special gas vents, chimneys, engine exhaust, mechanical draft systems, draft controls, and commercial kitchen exhaust.

ABOUT US

SLTNS Engineered Systems® is a professional manufacturers' representative specializing in high-performance building technologies such as stairwell and elevator pressurization control systems, combustion & make-up air systems, clothes dryer exhaust systems, multistory exhaust systems, special gas vents, chimneys, engine exhaust, mechanical draft systems, draft controls, parking garage exhaust systems, and commercial kitchen exhaust.

Expect More

SLTNS Engineered Systems® prides itself in exceeding your expectations. We believe in maintaining long-term relationships and not focusing on short-term gains. To preserve our relationships, we always apply three principles to each project:

- **Compliance.** Our engineers have a thorough understanding of codes and standards such as ASHRAE's chimney design equation, IFGC, IMC, NFPA 37, NFPA 54, NFPA 92 & NFPA 211.
- **Honesty.** We believe in long-term customer relationships. To build loyalty and trust with our customers, we always provide you and your client with the proper solution even it does not fit within our product portfolio.
- **Knowledge.** Our engineers have over three decades of design experience so we don't have to rely on computer programs or manufacturers to guide your design. Additionally, our estimators have full knowledge of our product line to ensure your questions get answered correctly.

Our Team

Our customer service team consists of people with extensive experience, skills, and enthusiasm to deliver top-notch customer service and technical assistance.

When you choose to work with our company over others, you can look forward to unparalleled and extraordinary service on all of your projects.

Making Every Effort To Exceed Your Expectations!
